AUTOSTEPS close down –
Only press red levers on
the second bottom treads
to collapse the ladder.

Automatic
locking
with clearly
visible
levers under
each tread

Extra Wide
treads
For extra
comfort

Unique strong
aluminium alloy
enhances safety

Easily portable, carry
Handle included

SIMPLE

The telescopic ladder is easy to pull out to the desired length and securing it before use is just as quick. When the red locking catches have unfolded under each rung, this indicates that the ladder is ready for use and can handle loads of up to 150 kg.

FLEXIBLE

With the telescopic function and the minimal turning radius, the ladders are perfect even in small spaces. The ladders can be adjusted to the optimal height to fit your needs precisely.

QUALITY, SAFETY & DESIGN

The Prime ladder is perfect for all sorts of professional work. The ladder is small and compact for storage and transportation. The triangular tube design makes the ladder.

Rubber tops, angled and grooved steps also mean that you can feel safe at all times.

PRIME LINE

With Prime we took everything we know about designing qualitative ladders and embarked on a new era. This is where safety, quality and design meets.

- Innovative triangular design for increased stability and strength
- Correct leaning angle
- Angled rubber feet and rubber tops maximise surface grip
- Friction profiles on steps to minimise risk of slipping
- Dirt channels – Maximise friction with no dirt between feet and steps
- Minimum turning radius in small spaces
- Simple to transport – Fits in all cars
- Simple and safe unlocking
- Always the right height
- Wide safety treads – Ergonomic to stand on for long periods of time
- Compact and portable – Light but strong
- Highly recyclable
- Silicon break technology
- Made of high quality anodised aluminium with glass fibre reinforced plastic fittings
- For professionals by professional

Model	PRIME 3.3	PRIME 3.9
No. of Treads	10	12
Tread Width	50mm	50mm
Working Height	4.4m	5m
Length Extended	3.3m	3.9m
Length Closed	800mm	870mm
Width	470mm	470mm
Weight	11kg	13.8kg

COMBI LINE

When you need to stand on the ladder for longer periods of time, where ergonomic features are of importance for maximum comfort and safety – The Combi ladder is the friend for you! Whether it is height, stability or long days of work – the Combi ladder will not let you down.

- 3 ladders in 1
- The most comfortable ladder on the market
- Wide safety treads – Ergonomic to stand on for long periods of time
- Angled rubber feet maximize surface grip
- Friction profiles on steps to minimise risk of slipping
- Dirt channels – Maximise friction with no dirt between feet and steps
- Minimum turning radius in small spaces
- Simple and safe unlocking
- Smart accessories for improved use
- Made of high quality anodised aluminium with glass fibre reinforced plastic fittings
- For professionals by professionals

Model	PRIME 2.4	PRIME 3.1
No. of Treads	6 + 2	8 + 2
Tread Width	90mm	90mm
Working Height	3.5m	4.2m
Length Extended	2.4m	3.1m
Length Closed	710mm	780mm
Width	690mm	770mm
Weight	14.5kg	19.5kg

SOLID LINE

The ideal platform for the person standing within the same space for long periods of time; where you do not want to be stepping up and down the platform just to move a bit to the right or left.

- Stable and sturdy
- Compact and easy to transport with integrated carrying handle
- Telescopic function gives 3 different working heights – 50 cm / 68 cm / 88 cm
- Wide safety treads – Ergonomic to stand on for long periods of time
- Friction profiles on steps to minimise risk of slipping
- Dirt channels – Maximise friction with no dirt between feet and steps
- Minimum turning radius in small spaces
- Simple and safe unlocking
- Made of high quality anodised aluminium with glass fibre reinforced plastic fittings
- For professionals by professionals
